Hi, Tony,

Just a quick note of thanks for all your good efforts on our behalf; you have kept us updated and informed. In addition you have spoken and written well as our advocate. This last letter was very helpful in articulating our position and our options.

I know that each board member really appreciates the work you and Duncan have put into this litigation; but I personally wanted to say thanks for a job well done! I would not hesitate to recommend you professionally to anyone I know.
